SCORING KEY

Transfer your scores from the items on your self-compassion scale to table below. To reverse score items, substitute the following scores for yours (1=5, 2=4, 3=3, 4=2, 5=1).

To compute a total self-compassion score, first reverse score the negative subscale items – self judgment, isolation, and over-identification.

Then take the mean of each subscale and compute a total mean (the average of the six subscale means).

Self-Kindness Items		Self-Judgment Items (reverse scored)		Common Humanity Items		Isolation Items (reverse scored)		Mindfulness Items		Over-identification Items (reverse scored)
