

Student Behavioral Health Survey

Faculty Directions

INSTRUCTIONS: Send this announcement to students in an email along with the survey link or read out loud prior to survey administration. The survey link can be found in the BrainAbouts Core or in an email sent by your BrainAbouts liaison or school administrator.

Dear Students,

Today, you are being asked to take a survey about risk behaviors. The purpose of the survey is to find out what issues might be a concern at your school. Through your participation, we hope to understand the collective beliefs, experiences, and attitudes of your student body. Once we discover what the needs of our school are, we will be able to offer services and programming that specifically meet these needs.

Remember, your participation is completely confidential. There are no known risks to you if you decide to participate in this survey. Your responses will not be identified with you personally. All answers you provide will be combined with all other student answers and presented as an average response in any reports given to students, school staff, or parent groups.

This survey will take approximately 20 minutes or less to complete. Participation is voluntary. You may stop at any time and there is no penalty if you decide not to complete it. Although it is voluntary, We hope that you will complete it because the information will be extremely useful to our school to determine what issues are of importance to our community. There are open-ended questions at the end of the survey to give voice to students regarding what issues you believe are most relevant to address.

This survey asks questions about sensitive topics. If some of the questions bring up emotions or thoughts that cause you distress, please immediately inform your teacher, school counselor or another trusted adult. If you have questions about this survey, you may also contact BrainAbouts directly. Thank you for your participation. We look forward to hearing your suggestions and concerns.

Thank you,

School Counselor or Administrator or Student Body Leader
