

Responsibility - Pre-K to 2nd Family Resource

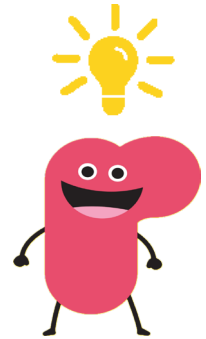

What is BrainAbouts?

BrainAbouts is a prevention and early intervention ecosystem that empowers young people to make positive choices, supports parents, and helps school staff overcome implementation obstacles with brain-based programming.

Learning about Responsibility- Students learned that...

1. A responsibility is something that you are expected to do. We are responsible when we follow through on doing what we said we would do and when we take accountability for our behavior.
2. Everyone in the community has different responsibilities which help keeps things running smoothly.

Family Connection

1. Give examples of how we can be more responsible at home or school.
2. Make a "responsibilities chart" to keep track of and celebrate each person's responsibilities in the home.
3. Sing the "Responsibility Song" together, and let your child teach you the tune!

Responsibility Song

I take care of my responsibility
By doing the things expected of me
I clean my room, work hard in class
I do my best on every task
I follow the rules and work so hard
Being responsible is smart!
